My name is Angie Goins and I worked as a Primary Care Provider in an Internal Medicine clinic for 20 years when I decided it was time to go out on my own. I found a great rural location in my hometown of Lawtell, Louisiana. My lot is in an open field with no other buildings or businesses around and thought: Now What? Do I build?

After researching options for my new clinic, I discovered Rose Offices and modular buildings. Mr. Garry Cain and his staff were extremely professional, nice and helpful throughout the entire process. Their website helped me visualize different floor plan options and I was pleased to be able to customize the clinic to my own specific wants and needs.

Now 2 years later, I am proud to say I have a very successful Rural Health Clinic housed in a Beautiful 3-section Modular Building from Rose Office Systems. I am very happy that I decided to work with Rose Offices for my family practice clinic and I highly recommend this company to anyone looking for Modular Buildings.
