

Primary Care Providers for a Healthy Feliciana, Inc.

~Federally Qualified, Not-For-Profit Health Centers~

The Right Care, Close to Home

*Ginger A. Hunt, Chief Executive Officer * Darie Gilliam, Clinical Director*

July 25, 2018

To Whom it may concern:

Primary care Providers for a Healthy Feliciana, Inc (PCPFHF) is a network of Federally Qualified Health Centers serving the residents of five parishes in rural Louisiana. PCPFHF began doing business with Rose Office Systems, Inc. in 2005 when we purchased two modular buildings to house our School Based Health Centers. Those buildings, now 13 years old, are in great condition, look good and are still being used to house school based primary care health services. Since the initial purchase of the first two buildings from Rose Office, we have invested in six more modular buildings. I have nothing but good things to say about the quality of the buildings and the service that we have received from Rose Office. Gary and his staff are not just vendors they are our friends, people whom we feel we can always count on to do their best for PCPFHF. I am willing to send pictures of our buildings and answer any question that you as potential buyer may have.

Sincerely,

A handwritten signature in black ink that reads "Ginger A. Hunt". The signature is written in a cursive, flowing style.

Ginger A. Hunt, Chief Executive Officer

Primary Care Providers for a Healthy Feliciana, Inc.
