984-5583

To Whom It May Concern:

Recently, Garry Cain of Rose Office Systems assisted us with the design and installation of over 2700 sq ft of modular office space. Garry was able to design a unique floor plan that made use of every possible square inch. He was able to design a building to "fit" the area we had allotted for our building. Garry handled everything from beginning to end.

I would certainly recommend Rose Office Systems to anyone having the need for additional space. The best part is from first talking with Garry to actually occupying the building was less than 6 months. Garry delivers and supports a very high quality product.

Sincerely,

Gil Trest – Project Specialist
